MARKETING CLUB ROZGŁOS

Our Student association was created from the need of development and self-improvement. We combine theory and practice. Play our favorite game with us (Excel), discover people's needs (trend lectures, ways of communication) and learn how to convince them to buy your product (marketing lectures).

SCIENCE CLUB RISK

The scientific database for students was set up to enable students to extend their knowledge on interdisciplinary topics beyond curricular requirements, including topics such as international relations and diplomacy. The database is mainly intended to support comprehensive development of Collegium Civitas, in particular its social, informational, cultural, scientific and educational activities, in order to make countries and states more aware of the significance of intercultural communication and to strengthen their convergence.
